## PROFILE

Full-stack developer with expertise in building responsive web applications, dynamic UIs, and RESTful APIs. Skilled in database management and creating efficient backend systems. Seeking opportunities to further expand my development skills.

## EDUCATION

<b>Bachelor of Computer Applications</b> <i>Kannur University</i>	2021 – 2024
<b>Higher Secondary</b> <i>MGHSS</i>	2019 – 2021

## INTERNSHIPS

<b>MERN Full Stack Internship</b> <i>Luminar Technolab, Cochin</i>	Aug. 2024 – March. 2025
<ul style="list-style-type: none"><li>Developed full-stack web applications using both MERN and MEAN stacks, gaining hands-on experience with React and Angular frameworks</li><li>Designed and developed RESTful APIs with Express.js and Node.js, integrating MongoDB for data management</li></ul>	

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, React.js, Redux, Bootstrap, Tailwind CSS, Material-UI  
**Backend:** Node.js, Express.js  
**Databases:** MongoDB

## PROJECTS

### **POS and Inventory Management System** | *HTML, CSS, React, Redux, Node.js, Express.js, MongoDB*

- Built a full-stack POS and inventory system with real-time stock tracking and low-stock alerts
- Developed end-to-end sales tracking with audit logs and implemented cart management and receipt generation.
- Designed an admin panel for user management, analytics, and system monitoring
- Secured the application with JWT authentication and Role-Based Access Control (RBAC)

### **Event Ticketing System** | *HTML, CSS, ReactJs, Node.js, Express.js, MongoDB*

- Developed a full-stack Event Ticket Booking system for users to browse and book tickets.
- Created a secure admin interface with JWT authentication.
- Implemented RESTful APIs for CRUD operations with Express.js.
- Designed MongoDB databases to manage events, users, and bookings.

### **Healthcare Management System** | *HTML, CSS, Python, MySQL*

- Developed a full-stack healthcare portal enabling patient registration, doctor and pharmacy management, and appointment scheduling.
- Integrated a chatbot to assist users with common health-related queries
